

SOAKER PADS

SUPERIOR ABSORBENCY

Absorbs Quickly, Reducing Slip Hazards

Stopping liquids before they become a slippery problem, Soaker Pads absorb fluids before they even touch the ground. These highly absorbent microfiber pads can be used to contain moisture from leaks, spills, and overspray in numerous settings. Where towels and various soak-up materials create clutter, Soaker Pads provide a clean work area. Our durable microfiber Soaker Pads are launderable, helping reduce costs and waste. Save time, space and money while preventing costly slip hazards with Soaker Pads.

Features and Benefits

- Clean, dry floors improve worker safety
- Absorbent microfiber pads hold more liquid than other products
- Compact design keeps your workspace neat
- Ideal for use in auto repair shops, dealerships, printing presses, machine shops, or any area where leaks or spills occur
- Launderable
