

Microfiber is fast becoming the cleaning industry standard for its superior absorption, cost effectiveness, and time-saving features. Our new ULTRA Series Microfiber products feature cut bottom pile, which penetrates deeper into surface pores picking up the smallest dust particles. Velcro backing makes changing these mop pads quick and easy, eliminating concerns about cross-contamination from one area to another. Microfiber mops require a smaller amount of chemicals and water to clean than traditional mops, making them easier on the environment and easier on your bottom line.

## ULTRA Velcro Microfiber Dust Mop Pad

- Easily dusts and cleans any flat surface.
- Fringe edging picks up more dirt.
- Works with Golden Star's HD Aluminum Hardware.

Item #	Size	Color
